Welcome to my resource unit for your study on The News! I hope that you will find these resources useful for your Kindergarten or Grade 1 student to help you explore Bible, Math and Language Arts.

I have given you some tips along the way that will help you to use the resources, but they are open ended so that you can put together a unit that works for your family.

Have lots of fun studying The News!

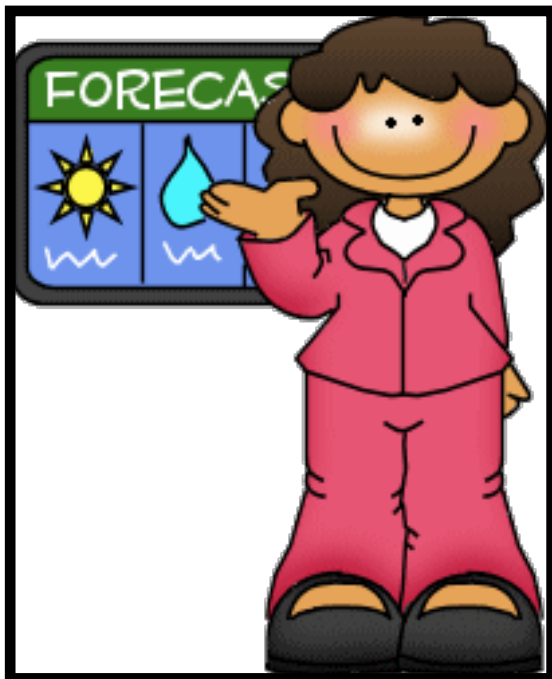

Blessings!!

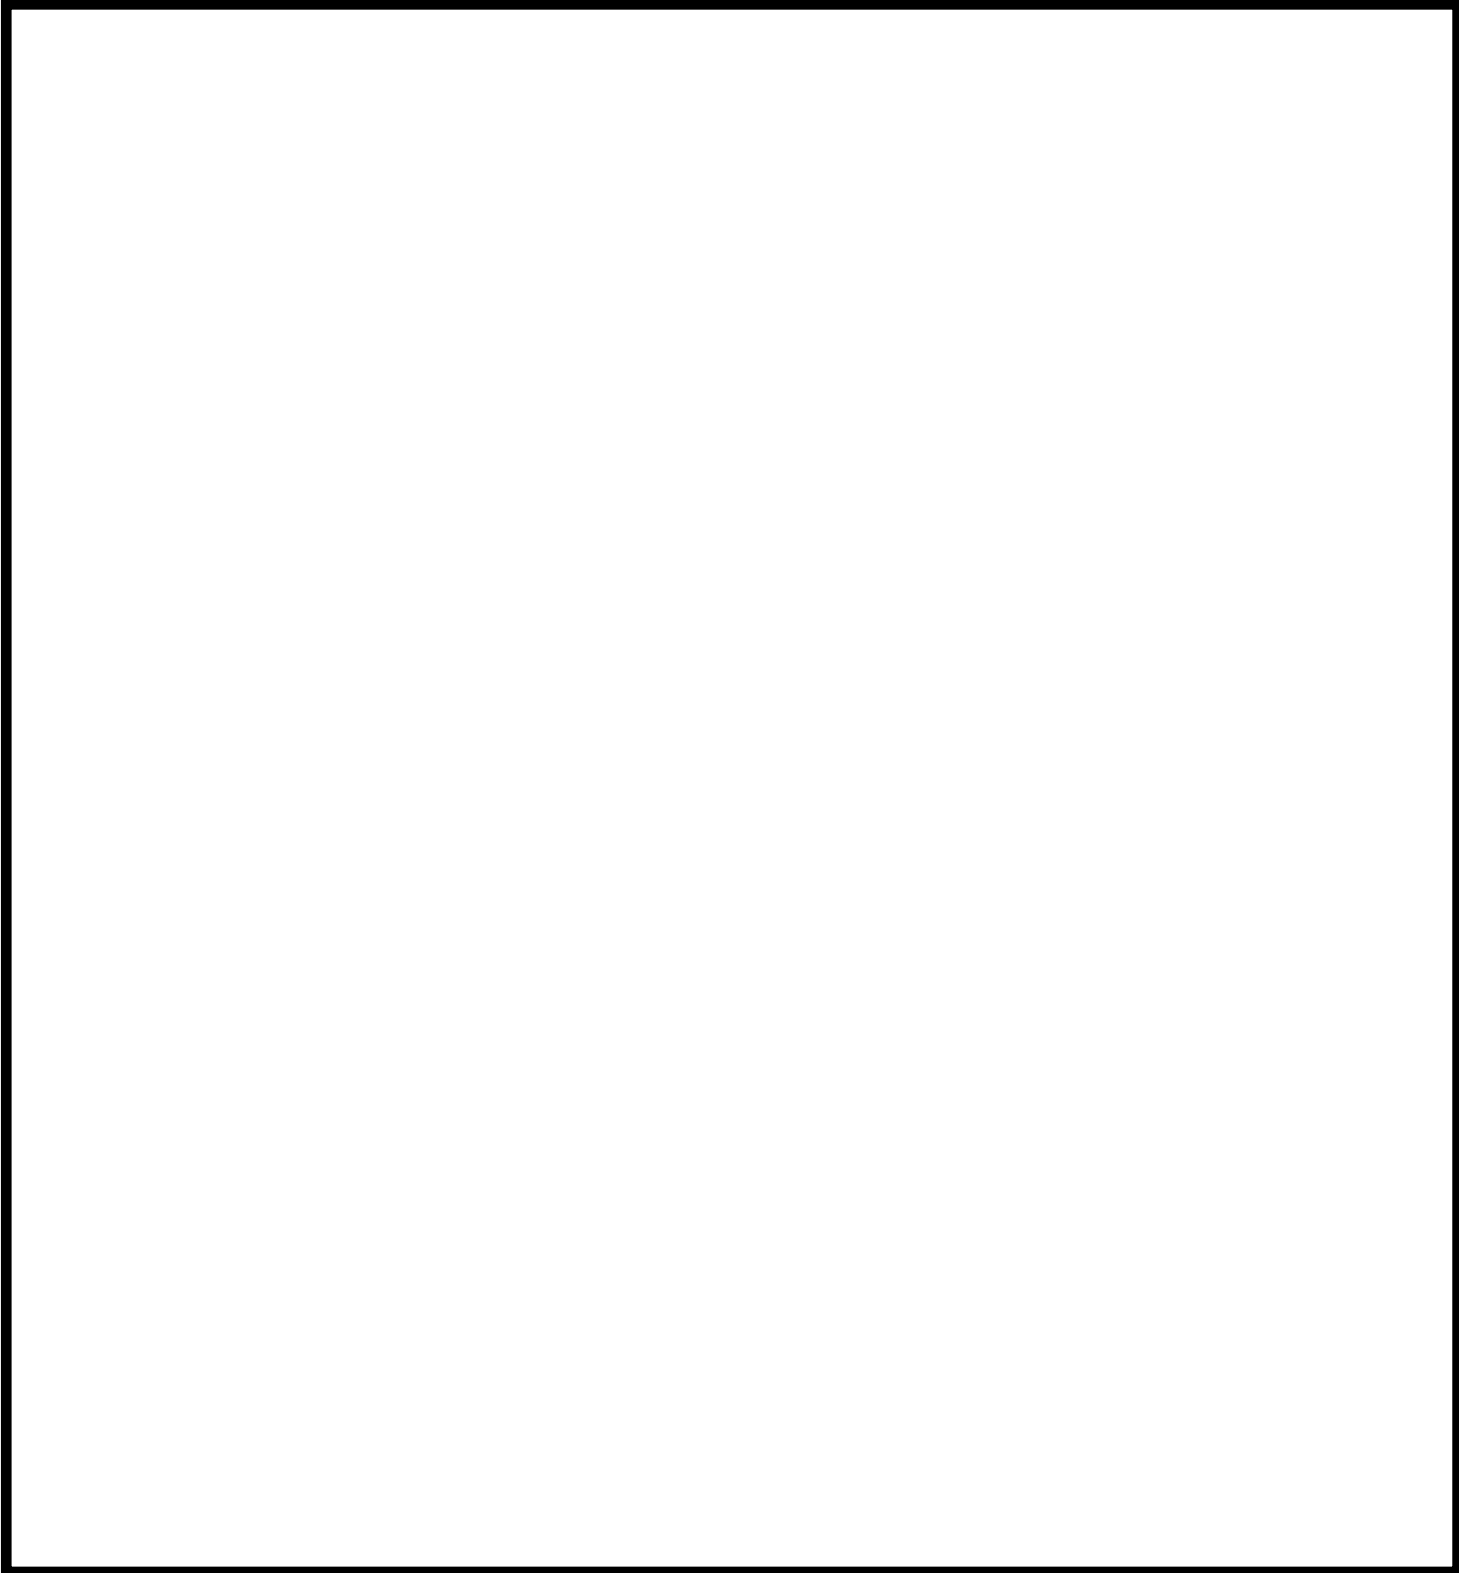

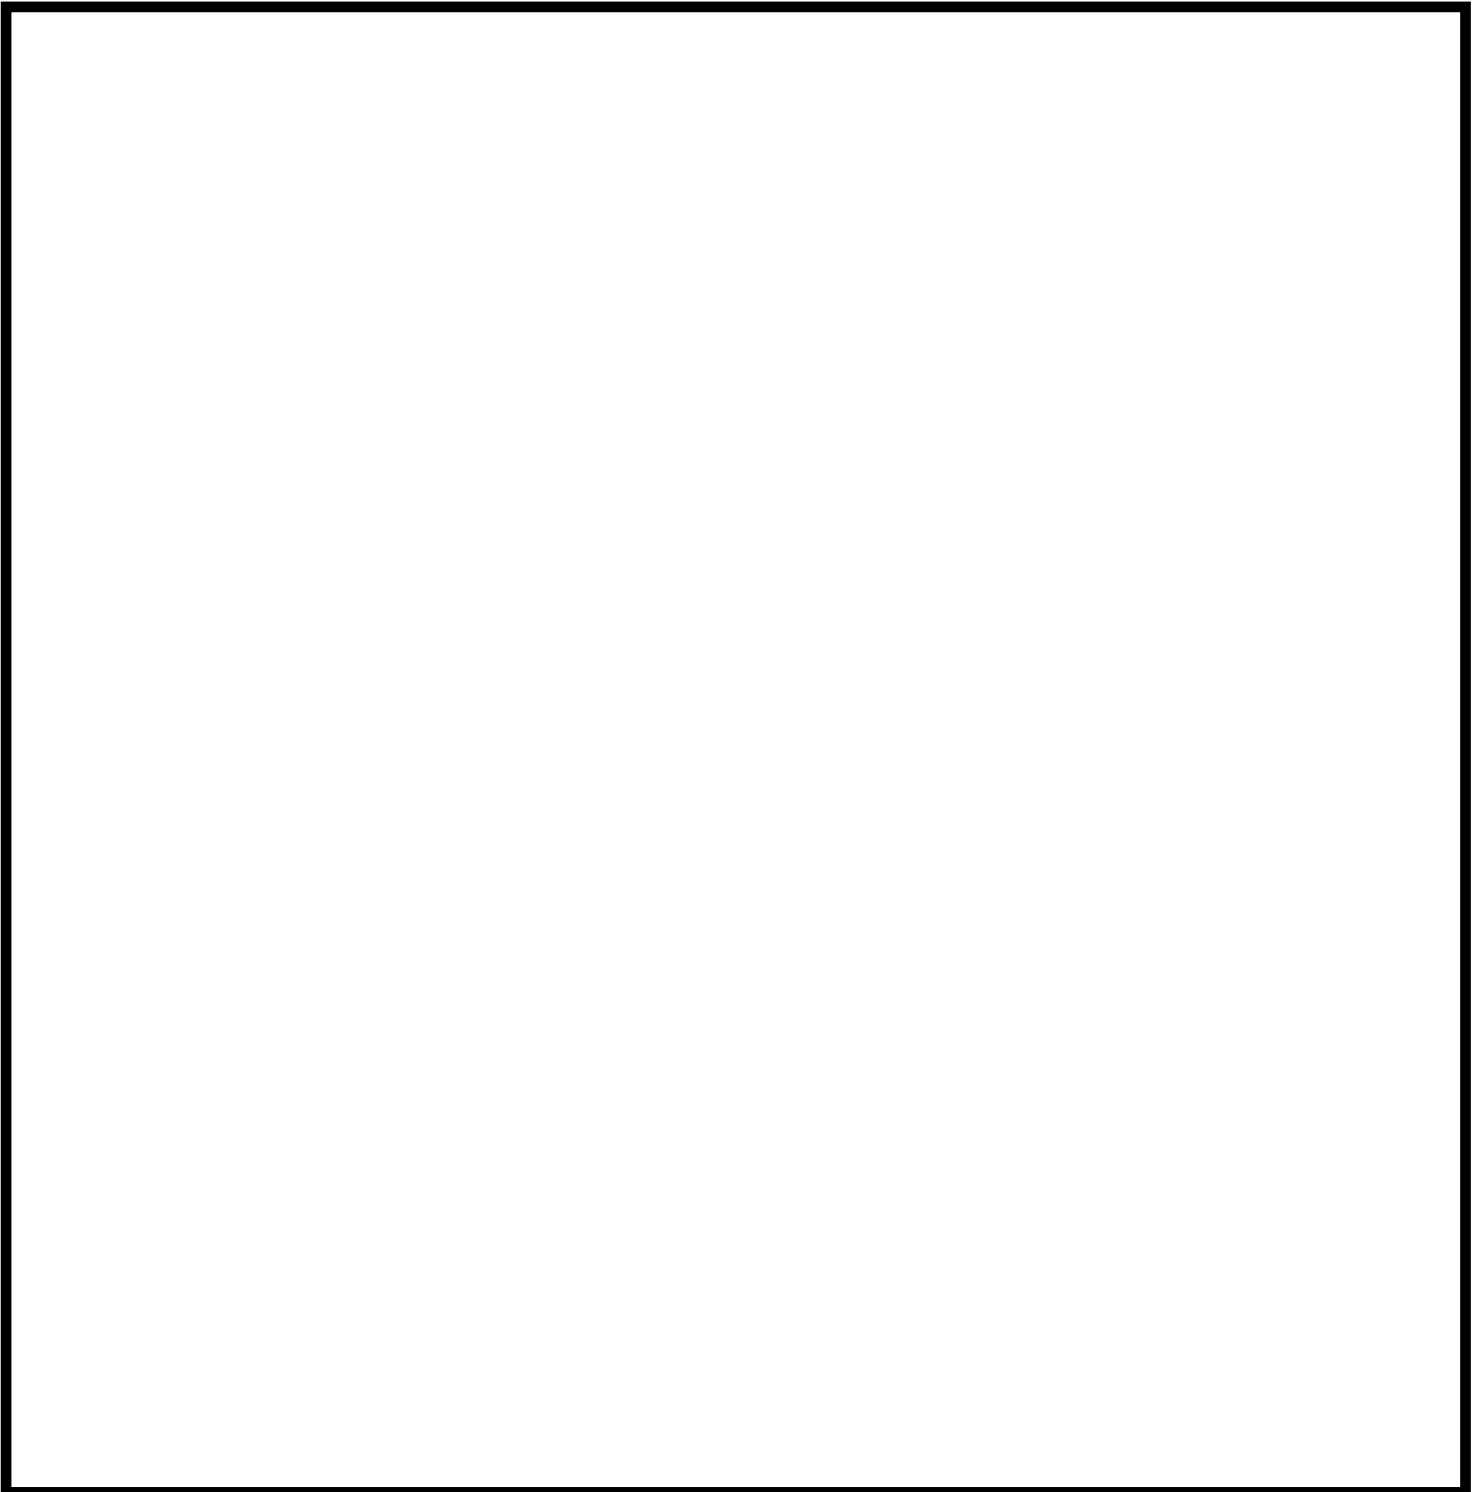

These counters can be used for a variety of math activities:

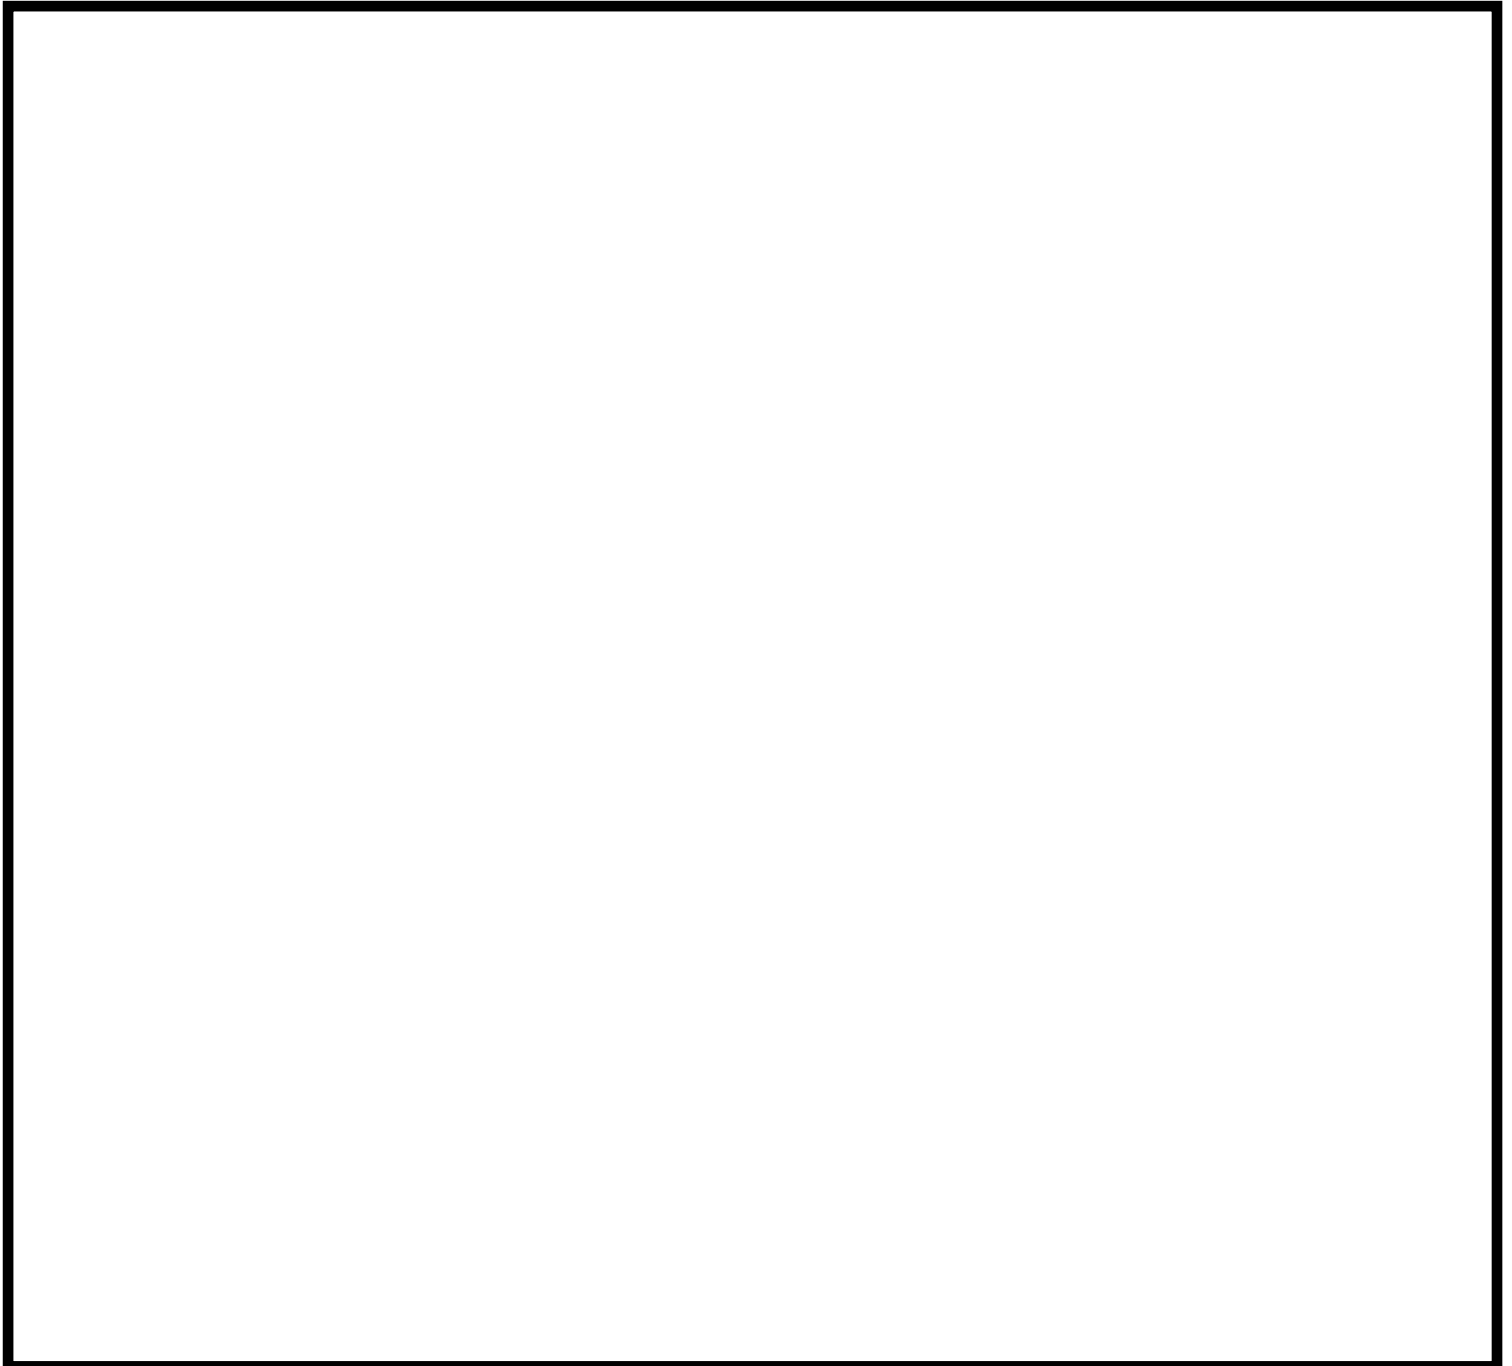

Counting, Adding, Subtracting, early Multiplication and Division as well as Patterning. You could even put up number sentences on a whiteboard and have your student use the counters to work them out. They would also be great for use along side a Hundred's Chart. Enjoy!!

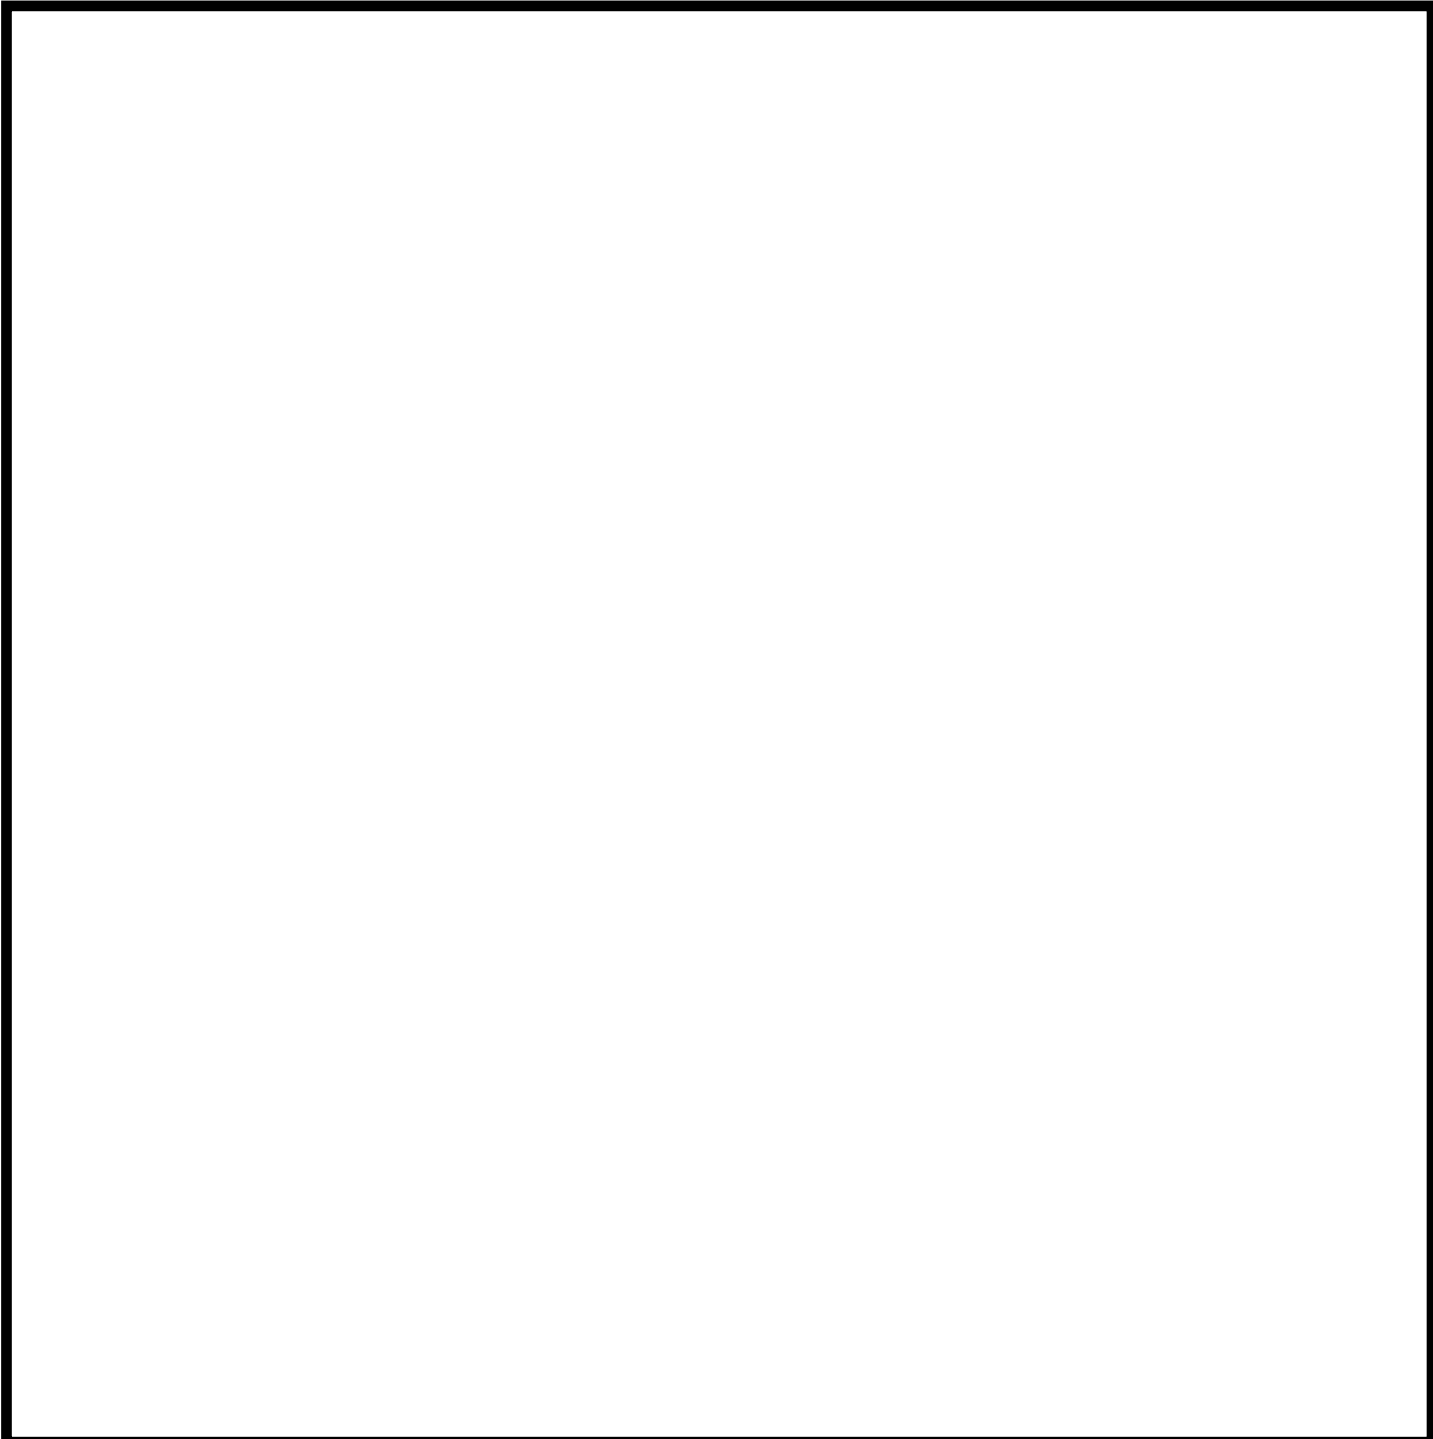

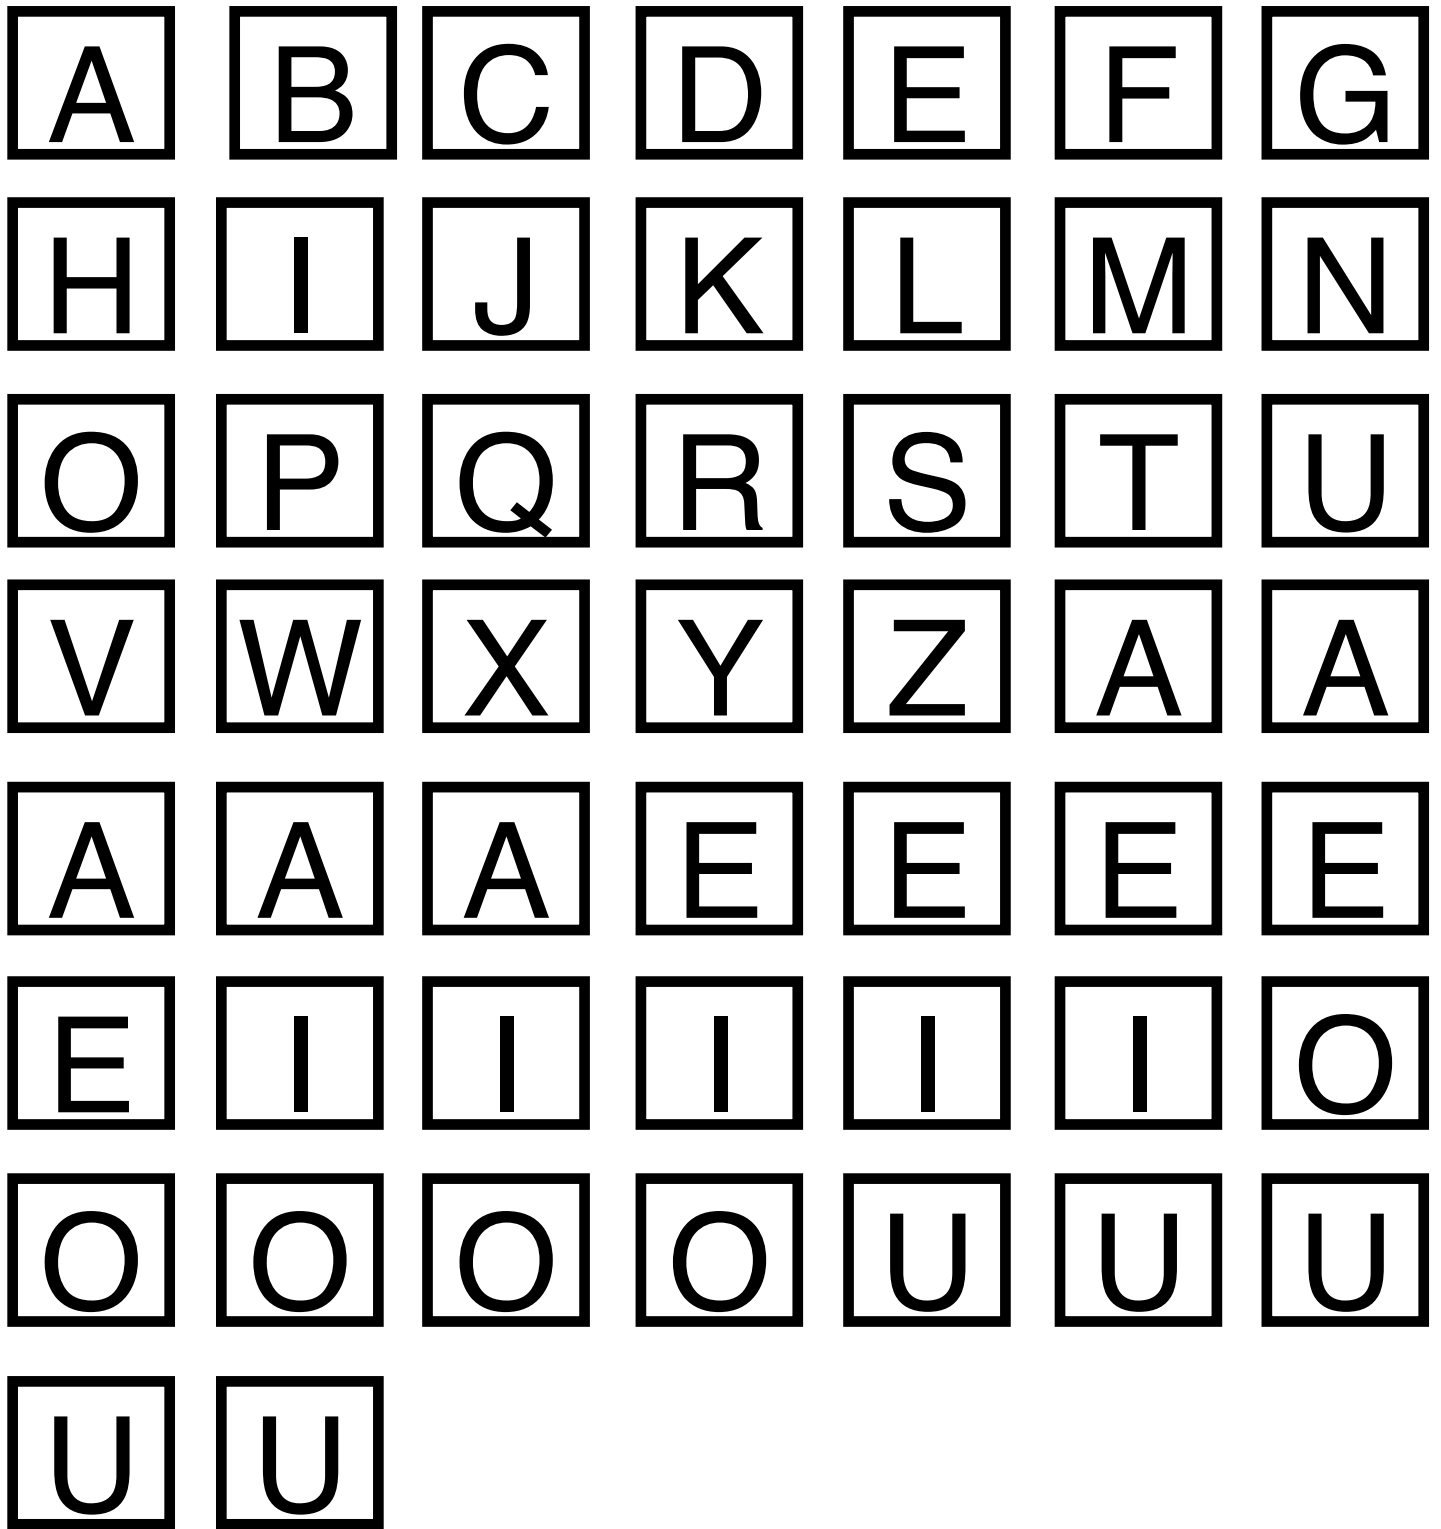

These figures are in a variety of sizes. You could make them into a math lesson by measuring them or you could put them on popsicle sticks and use them for acting out stories your student could dictate/write on the following pages (7-10).

These letters can be used for creating CVC words or they can later be used for creating words (and sentences) with the following frames.

Sight Words

The first page (page 15) are for Kindergarten and the following pages are for Grade 1 (16-18).

These words can be used as spelling flashcards. They can be used for practice of alphabetical order. They can be used for copying into a notebook. They can be used for oral practice as well. The theme words can be used in a similar way. We have given you some extra plain flashcards to add your own words.
